

It doesn't get Greener than Red.

Mary's River Western Red Cedar, that is.

Mary's River Lumber Company has been committed to environmental stewardship since its inception over 35 years ago. From our energy efficient, state-of-the-art plants, to our proficient use of timber resources, Mary's River is a leader in Red Cedar "green" production.

Western Red Cedar is by nature "green." Mary's River Red Cedar is manufactured from abundant, fast growing, second-growth resources. It is durable, decay and insect resistant, has no chemical preservatives, is clean and safe to handle, and is 100% renewable, unlike cement and plastic composites.

Mary's River's manufacturing requires less energy than steel, cement-based wood substitutes, and plastic-based composites. Our plants are closely regulated for environmental compliance.

Western Red Cedar's warm tone, natural grain, and rich texture make it the product of choice for siding, decking, railing, and fascia, *and*, no one does Western Red Cedar like Mary's River. Give us a call at 1-800-523-2052
