Kiln Dry

Mary's River Tongue & Groove is ideal for siding or paneling. Each board is precision machined with a resawn, rough face and a smooth face, so the customer can choose a surface that is casual and rustic or more formal and elegant.

The smooth face with deep beveled edges creates a paneling of warmth and richness that enhances any decor. Our Tongue & Groove is available in tight-knot or clear grades to fulfill your customers' needs.

Channel Siding

Nominal Size	Line A	Line B
WC 141 1" x 8"	7 ³ / ₈ "	2 ¹³ / ₁₆ "
WC 105 1" x 8"	7 ³ / ₈ "	3 ³ / ₈ "

Grade – STK (10-15% Quality)

Tally – 6' to 20' ELO

Moisture – Green, Kiln Dry (19% M.C. or Less)

Mary's River Channel is an ideal siding where a rough-hewn, textured appearance is desired. Channel Siding makes a handsome statement in almost any architectural style, from today's craftsman to traditional or contemporary.

It is available either unseasoned or as a premium KD grade, dried to specific moisture content (19% M.C. or less).

Mary's River Channel Siding has a depth of texture and unique detail that can't be duplicated in wood substitutes.
